

 **TERRAGAVE**
2024

A UNIQUE LOCATION, A SECOND LIFE

Our story starts in the fields of agave in **Jalisco, Mexico** where agave plants are grown in massive quantities due to the global demand of tequila production.

Terragave products are made with a repurposed strong raw material left as a residue of the **Tequila** production: agave fibers.

We take these fibers and give them a second life. By mixing them with other materials we achieved a one-of-a-kind sustainable, durable and biodegradable planter.

NATURAL AGAVE FIBERS + DURABLE PLASTIC =

A ONE-OF-A-KIND
BIODEGRADABLE PRODUCT

® 2017

TERRAGAVE

MADE WITH BIODEGRADABLE
REPURPOSED AGAVE FIBERS

THIS IS TERRAGAVE

UNIQUELY
from
MEXICO

for INDOOR
and OUTDOOR *use*

Terragave challenges any and all previous notions about biodegradable products. Its practical and beautiful design, plus lightweight features, make it even more appealing to the environmentally friendly customer. These are the products our socially responsible audience has been asking for.
